

# Communist Party Said to Be Active in East

(By Associated Press)  
CHICAGO, Nov. 22.—The first "underground party" that the United States has ever seen is now believed to be operating, according to Edward J. Brennan, division superintendent of the bureau of investigation of the department of justice here.

"It appears," he said, "that the members, or a great majority of them, of the Communist parties have gone over to a United Communist party that seems to be maintaining a secrecy never before attempted by an American radical organization."

These people appear to be holding meetings with the utmost secrecy with which they can surround them. Games used appear fictitious.

The Russian element which formed the backbone of the original Communist party appears to be in control and to have the bulk of the membership of the new secret organization.

Literature is frequently distributed without any indication as to where it comes from. In order to escape detection, it appears that the party members take unusual precautions. The members are known among themselves and literature is passed around them, sometimes by messenger. When mailed, we know that it is in small quantities, three or four letters or packages in a box in the corner of a city and three or four in a box in another section.

The party has its largest membership in Chicago and New York. In Chicago meetings have been made extra difficult by the Illinois law which forbids renting property to an outlaw organization of this character. Property owners who become suspicious often call us to make sure on this point."

## FRANCE WILL MAKE BID FOR RUSSIAN TRADE

(By Associated Press)  
PARIS, Tuesday, Nov. 24.—The suppression of the blockade against Russia is favored by Premier Leygues, he told the committee on foreign relations of the chamber of deputies last evening. Inasmuch as the Soviet government actually is operating, he said, it had been decided to permit French traders to do all the business they can with Russia.

The premier said he considered the rout of Wrangel's troops represented nothing and that France was released of all obligations to him. France now is feeding Wrangel's troops out of humanity, but would continue to do so no longer than was necessary, he said.

## ARCHDEACON RESIGNS POSITION IN NEVADA

Rev. E. Lewis Howe, archdeacon of the Nevada diocese of the Episcopal church, has accepted the position of director of religious education in the San Joaquin, California, diocese, and will leave next week for Stockton, where he will make his headquarters.

Rev. Howe has been engaged in missionary work in this state for the past three and half years, and the result of his efforts are reported to be most fruitful. Under his supervision many towns in the state that otherwise have no church organizations have been afforded church services at regular intervals. Other parishes have prospered through his co-operation. The archdeacon's work has been attended by a state-wide acquaintance.—Gazette.

## L. A. MERCHANTS LEAVE FOR MEXICO

(By Associated Press)  
LOS ANGELES, Cal., Nov. 26.—A special train carrying 155 members of the Los Angeles chamber of commerce and others prominent in civic affairs left last night for Mexico City on a trade excursion. Stops will be made at all important Mexican cities and the capital will be reached November 29.

## DON'T WANT ELK

The stockmen of Elko county have entered a protest against the bringing in of a carload of elk by the Game Club of Elko county. They contend that the range is overstocked as it is and no further stock should be allowed.

It looks very much as though the stockmen are hunting dollars, while the club is endeavoring to hunt some game in the future.

Countess Ganna Walska, Russian actress, who was secretly wed to New York's wealthiest bachelor, Alexander Smith Cochran, in Paris.

## OLD CAMPS ARE SHOWING LIFE

The following notes of interest regarding mining conditions at Rawhide and Candelaria are from the Hawthorne Bulletin:

Candelaria is a growing camp. There are about 100 people there, all employed in the mines or in business of the town. The company has put many of the houses in first-class repair with all modern improvements and plumbing. Crude oil is used to a great extent for heating and cooking. A school district has just been established and a post-office has been authorized by the department. The county commissioners have recently appointed M. C. Sinnott justice of the peace.

Rawhide seems to be picking up. There are about 30 leasers working on various prospects in the vicinity, all making wages. Harry Scheeline is reported to be collecting \$500 monthly in royalty from the Nevada New Mines company.

OGDEN, Utah, Nov. 24.—Ray Clough, 14 years old, goes on trial tomorrow charged with having murdered his sleeping father. The boy is said to have asserted he did so because his mother told him the father had killed his brothers and sisters and would kill him.

## JEWISH STATE IN PALESTINE URGED

(By Associated Press)

BUFFALO, N. Y., Nov. 26.—An appeal for the co-operation of all Jews in America to convert Palestine into a "true Jewish homeland" was made yesterday by Julian M. Mack, president of the Zionist organization of America, addressing the opening session of the twenty-third annual convention.

The creation of a Jewish state in the Holy Land under guarantee of the British mandate has created a definite problem for upbuilding the Jewish homeland, Mack said, and he added: "For decades this will require the united effort of the whole Jewish people."

He appealed for support for Sir Herbert Samuel, British high commissioner, who has called for aid in procuring a Palestinian governmental loan of 3,000,000 pounds for railroad improvements, communication lines and erection of government buildings.

## SUPPLY MINES BY AIRPLANES

(By Associated Press)

GRASS VALLEY, Cal., Nov. 26.—A test of the practicability of an airplane service to a circuit of mines in this region was made recently with satisfactory results. Starting from the Gilmour aviation station, here a circuit of approximately 60 miles was covered in 51 minutes at a cost for fuel and oil of about \$3.25. The machine carried two men besides the pilot and it was stated that a load of 600 pounds could be carried with ease.

Mines isolated by distance and poor mountain roads often lose valuable time by being unable to secure supplies and breakage repairs promptly, and the project of an airplane service has been discussed for several months. In the test made some 10 or 12 mining towns or mining camps were passed over.
